

Fundraising/Creative Enterprise Ideas

Students are always seeking business opportunities that can raise money for the club, without taking a considerable amount of students' time. Know what the best thing is about being part of a national network of CEO entrepreneurs' clubs? You don't have to reinvent the wheel!

Take the ideas from other chapters and use them on your campus. We will call this "borrowing brilliance". The idea is to "borrow" the "brilliant" ideas from fellow CEO chapters and use them on your campus. See the list of ideas of chapter fundraising below. The University of Maryland coordinates an annual Entrepreneur Invitational golf tournament to support the entrepreneurship program.

From holding an annual golf scramble to coordinating a boat cruise for the national CEO conference, these activities raise money for chapter operation and enables members to attend events at no cost.
